## Let the Wild Cats Alone

Every now and then somebody calls to ask for our opinion of some get-rich-quick scheme in which he or she has been asked to invest. For several years past the country has been flooded with bonanzas (?), and many people, to their sorrow, have put money into them.

Occasionally some good but misguided man who has already bought a "wild cat" stock, calls on us seeking information. We like always to be encouraging, but on such occasions we feel very much as we imagine the doctor does who has to tell his patient the worst.

It is for the reason that there are very bad as well as very good securities that we advise prospective investors in any issue to investigate it thoroughly.

## Forest View

This is a beautiful spring morning.  
Some of the farmers in this vicinity have finished planting corn, but the majority will plant this week and next.  
Tobacco plants will be somewhat scarce around this way, on account of the flies, some have had to sow their seed as early as three times. One man was heard to say, he had sowed three times and he was not going to sow any more; if the flies destroyed them this time, he was going to ride around this summer and have a good time and let tobacco go.

We are afraid all the fruit is killed and on account of the frosts the gardens have been put back considerably.  
Mrs. H. W. Martin was on the sick list last week but is better.

Mr. W. T. Nash lost a pretty twin calf last week by a colt kicking and killing it.  
Pettie's Fork school taught by Miss Ethel Ford will be out Wednesday. I guess teacher as well as children will be glad as the long hot days are coming. We hope some person will volunteer and superintend a Sunday School at this school house as there are so many children around who cannot get to Sunday school on account of the distance. He or she shall have the co operation of a team of good Sunday school workers. Let us hear from some one.

Success to the Times Virginian.

Mr. W. L. Ford and Mrs. Ella Swan have so far recovered as to be out.

## Lumber Back to Normal.

LUMBER has reached a price-level where its value bears the true and proper proportion to the value of the products you farmers raise and sell. In other words, prices today on lumber are consistent with prices on farm products. THERE'S NOTHING MYSTERIOUS about it—just the old law of supply and demand—and a willingness on our part to play fair with our customer friends by reducing our prices to a point where you can afford to buy.

RIGHT NOW your problem may be a barn, a shed or other building necessary to help you do your work better, more quickly or more economically. Or it may mean a new home, or repairing and remodeling the old one.

BRING YOUR PROBLEM TO US—Let us show you the facts. We have many plans and suggestions, some of which you can probably use, and our friendly counsel and assistance won't obligate you in any way.

Come in the first convenient day and let's talk it over.

EVER BILIOUS?  
Charleston, Miss.—Mrs. R. V. Heins, of this place, says: "I have never had to use very much medicine, because if I felt headache, dizziness, or colds, bad taste in the mouth, which comes from torpid liver, I would take a dose or more of Black-Draught, and it would straighten me out and make me feel as good as new. We have used it in our family for years."

THE DRAUGHT  
BLACK-DRAUGHT

and it certainly is the best liver medicine I ever saw. It has not only saved my life, but it has helped me in my system in shape, and has never weakened me as so many physics do. I recommend it to my friends and am glad to do so. Black-Draught is the old, reliable liver medicine which you have doubtless heard much about. When you feel badly all over, stomach not right, bad taste in your mouth, bilious, or have a headache, try Theodora's Black-Draught. At all Druggists.
